01 RUTHLESS

- TRE-DOT

Yeah!!!
 Tre-Dot in this land of decay
 Total madness
 The world is over and I love it!
 [VERSE 1:]
 We can do this the simple way
 I prefer to keep it complicated
 No dreams and no hope,
 they been terminated
 Main focus on attacks and movements
 Streets are dominated by
 pollution and mutants
 Fight like a boss time to trigger
 and finish 'em
 Plants seek and devour flesh is
 how we living friend
 Mutated creatures to destroy is
 the purpose
 I used to love this city
 now I spit on its surface
 No fears and no tears
 that's the vision here
 Stepping over bodies full of virus
 and cancers
 I'm immune to it. Bathe in it, gaze in it
 Get a rush from it
 when I see the earth plummet
 New day, new pains, new defense
 Smell of death is in the city
 criminals running rampant
 Survival of the fittest
 while the weakest lay comatose
 Cancerous epidemics is spreading
 like common colds

[HOOK:]

No hopes and no dreams I'm useless
 No cares and no fears I'm useless
 No hopes and no dreams I'm useless
 I'm useless 'cuz I'm ruthless!

[x2]

[VERSE 2:]

Fresh air is a memory, misery in the eyes

A prospering humanity is on the decline.
 Reservoir of radiation am I
 Hopeless, my kind of town
 so you know it I'm open
 Creatures so grotesque, a pain in my chest,
 What's this a foreign agent burnt
 a hole in my vest
 Pain and struggle
 is the new form of happiness
 Each step you smelling the decay of
 mutilation and madness
 Unseen been seen too many leaving leaned
 Regurgitated from a mutated being
 Parasitic agents small as bacterium
 Can't see 'em but they got the city
 still fearing 'em
 Heads explode and the bodies erode
 This ain't a gated community,
 drop tops and cell phones
 No fear, no shame, no pain
 No rest, chin check,
 you better keep spraying

It ain't over yet! (hahaha)
 But it will be over. (yes yes)
 The end has begun now... (begun now)
 But I love it, (I love it)
 It's my kind of world... (my world)
 A lot of y'all scared (uh huh)
 I see y'all scared... (scared to death!)
 Survival of the fittest... (uh huh)
 Will it be u (uh ha!)

[HOOK:]

No hopes and no dreams I'm useless
 No cares and no fears I'm useless
 No hopes and no dreams I'm useless
 'Cuz I'm ruthless!

02 OVER IN A FLASH

- SICK YG

Ha Ha Ha... Guess who's back?

[VERSE 1:]

Some just chitter chat I ain't really into that
 I just like to counteract
 on the point of the attack

Check my resume it can happen any day
 They're trying to wipe us out but then
 again I got something to say
 Who's the enemy is it you or fens to be
 The opposition my position
 taken out relentlessly
 They taking chemistry
 released in my vicinity
 Mainframe to wipe out humankind
 and all its history
 Leave it up to me I'm not gonna let it be
 I'mma load my arsenal
 and take control by any means
 Unfold my weaponry a vet
 will see it to the end
 You think that I'm a pawn?
 Well let the game begin

[HOOK:]

Okay in time my friend
 you'll begin to see my wrath
 Smile now but we'll see
 who has the last laugh
 You're standing in my path,
 well I'm about to smash
 Don't worry, it's over in a flash

[VERSE 2:]

It doesn't make a difference
 who's gonna end up missing
 Or beaten bad in a state of critical condition
 Okay the competition is getting
 on my nerves
 If you can feel the heat,
 then you're already burned
 Into confetti turned,
 I'm trying to duck the germ
 And if you're in my way, it's an unlucky turn
 I'm not a flunkey learn a little data fool
 I graduated honors, exterminator school
 I'm in to hurting dudes
 what would you do if you were me
 Well it don't really matter,
 'cause I'm just doing me
 I must pursue the key
 what's the answer to my quest?
 It's either you or me
 now make a choice no regrets

[HOOK:]

[VERSE 3:]

I can't be tamed my friend
I'm a soldier to the death
Look around, it ain't too many left
Watch ya' step first move is a doozy
You thought you had a chance,
you could've fooled me
What I need to do is go in a violent rage
Isn't that the code living in the final days?
I'm living in a cage
look around it's full of crap
The people hanging on,
feasting on the scraps
What's the haps? It's a trap full of madness
Emotions out the window
is a form of a past tense
Ask this, do you wanna maintain
Or get deleted,
for mistaking life for just a game?

[HOOK:]

Ha, ha, ha!
You thought it was a game?
Ha, ha.
It can be over in a flash!

03 MY PRIDE - SKITZ THE SAMURIDA

(Yeah) My Pride, you can't stop it
My weapons, you can't handle it
(Yeah) My Pride, no stoppin it
My weapons (I like this), that's right

[VERSE 1:]

In a world of hate with a twist of fate
Survival comes down to the moves you make
Filled with waste it's chaos based
Won't stop till this evil erased
On a mission with murderous tendencies
All I do is annihilate enemies
Ain't nothing left in the world for me
So I gotta take pride in my weaponry
All I got is raw hostility
I'm all alone no mobility
Now see in the mind of a killer
See for yourself nothing more realer
No fear of death living like a warrior

You can bet I'm coming for ya
And there ain't no reason to hide
You thank me when I end your life

[HOOK:]

My pride I hold in my hands
Demise is yours when I flash
I can't deny it there's no stopping
Me stomping on my war path
I'm slicing more than a gash
You feeling lucky we clash
I can't deny it there's no stopping
Me stomping on my war path

[VERSE 2:]

Now it's not doubt that my weapons
Mean the most to me no question
And in this day and age they the
Only things I got that's blessings
I keep 'em close they so lethal
As I prove to you there's no equal
Your life ends here with no sequel
Not a bone in my body that's peaceful
All I do is inflict damage
Take it to the point that you can't manage
Naw you can't stand it
Getting manhandled by this true savage
Yeah something like a body breaker
That's right born and bred as a life taker
I see it in your eyes
You feel honored when you die

[HOOK:]

[VERSE 3:]
This cold world leaving me one option
Slaughtering my foes non stopping
Now I'm taking the pleasure in chopping
Bottom line your life's what it's costing
My full arsenal is what I'm unleashing
Like a war god I'm taking out demons
I'm beasting while your body's leaking
Loving the feeling
when your soul stops breathing
On a mission dishing out death service
If you see me coming goin get nervous
If you ask me your life's worthless
Perish at my feet gives your life purpose
The joy is mine to break your spine
And it may seem like I lost my mind

To me a killing spree that ain't a crime
I'm smashing decapitating all the time

[HOOK:]

Hahahaha, you'll never stop me, (that's right)
You can try but you won't (it's over man),
Eventually you always gonna meet yo death
(yeah) yeah
Hahahaha

04 SOUND THE ALARM - C. WILKES (OX)

Sound it (x7)
Sound the alarm!

[VERSE 1:]

And the crowd is wild
But the whole world is still the silence loud
So I break the plane and let the lion out
And they inhale so hard they tired now
Put the fire out oh they trying now
But it's bigger than just flame the time is out
And they can't speak the name they riot out
And it don't look like
it's about to be dying down
Now they flying out but I'm wilding now
And equipped to stop
whatever they trying now
The soldiers on they back and crying now
They tried to deal
with the heat but they frying now
Tried to wind the dial but its winding out
All they can do is recognize the sire now
The warriors might as well retire now
Tell the world to
let 'em know put the siren out

[HOOK:]

(sound the alarm)
Put the siren out
Tell the world let 'em know put the siren out
(sound the alarm)
Before the time is out
Tell the world it's going down the siren out
(sound the alarm)
And it's sounding loud

You better move
when you see that the siren out
(sound the alarm)
And the siren out
Yeah the siren out
Baby the siren out (sound the alarm)

[VERSE 2:]

Start it right where I left it
Easy to do when you stay on that next shit
And I'm reckless and they step with
So much fear that I could eat it for breakfast
They weapons is so helpless
Move time with mine and leave wreckage
And they neckless, literal
The only way I'm seen as subliminal
Meaning they never see it coming
before it ends
And I'm the one to see that it begins
Even tho it's just a game I'mma win
By any means necessary man
And I go hard in the pocket
It's big boy moves from
the second that I clock in
I set aim and I'm locked in
Then I hit the siren and I start rocking

[HOOK:]

Sound it (x16)
Sound the alarm!

05 MORTIFIED - WONDER BROWN

Better watch out if you're mortified
[x4]

[VERSE 1:]

Paranoia all around
If this here is a toy what I'm holding now?
Little girls and boys keep the noises down
While I deploy these
where your voice is found
And that's that, two seconds flat
Guess who, it's me
and my crew checking back
Only the elect can keep up with a rap
That'll leave these idiots
a reason to run track

You don't know my style, running wild
Guerrilla tactic
with the guile of something fowl
Got you wondering now
who's hunted down
When you can't put a finger on
how I'm on the prowl
Your number one priority
Never turn your back
when there's more from me
Gun cocked, ready to be pouring these
Caps, and that's all you'll see

[HOOK:]

Eyes open, there's more than a season
Ears open, there's more than a rhyme
Mouths open, there's more than a reason
So it tastes better than you can find
Mind open there's more than a feeling
Still hoping there's more than a sign
Better know that you won't get killed
When the rest of these fools are mortified

[VERSE 2:]

Two feet forward in the fight of my life
Couldn't kill me if I was blind at night
What you gonna do when my eye is right
Blood thirsty, and my line of sight is you
Taking shots at me, refusing death
Never knowing what's ahead of each breath
Bodies of the dead remind me who slept
For a second, then I reckon that
they forgot checking what's true
You thought killing was cool
From a young age these children once knew
The safe way for living was staying in school
'Til they found out the villain was you
Now it's all about survival of fittest
When it's my time, the trial and the witness
Ain't gonna be able to say a word,
my face a blur
Cause they lack the right kind of fitness

[HOOK:]

[VERSE 3:]

In this world I conceive as a coffin
This is all I know
and I'm thinking that often lost in

Translation, the hell that I'm facing
Couldn't tell that
I'm pacing the floor with caution
And I can feel your curtain closing
Take another drink
and I'm sure that the potion
Won't cut it when your toes don't run in
The direction and flow of forward motion
And your mind just wanna keep moving
Faster than your flow can find
That sentence,
where you're past your penance
And you grasp
what went into the path you rhyme
Grow up, boy, you're still teething
Still learning you can't control
Trying to gain the impossible
that got you fooled
Now your enemy done got your soul

[HOOK:]

[x2]

[HOOK:]

[VERSE 3:]

Love to see the idiots come to play
Less work for me yeah hooray!
Cheer 'em on enjoy the scene
Til I'm ready to swipe 'em clean
In the cut but I see clear
Nobody knows that I'm in here
Should I stay or should I go
See a man down my cue to show
Blah Blah I run this

Lookin so sad n cryin to leave
Nah u stay here lye and bleed
Thought u had the lead and now u prey
Only chance u have is pray
Hope to see a better day
Sorry for u it's not today

[HOOK:]

Ha Ha All that wasted energy...
Silly fools tryin to go to war...
I'll just lay in the cut...
And when I come down...
That's the death blow!

07 SOON ENOUGH

- SICK YG

Yeah, I'm about my dough;
and, I need it in my hand!

[VERSE 1:]

(C'mon, yeah) In this corner is
the heavyweight champion
Ask around man
you don't want to step to him
Cash driven with a monstrous grin
Aw snap! Let the killing begin
You got a villain that's in to win
and don't depend on the handouts
Gettin' paid from a blade
while the fans shout
Knock 'em out then your scrilla grows
Knock 'em off and become a pro
as if you didn't know
The fetty is about to gross majorly
And what you hold precious is
only a game to me
No thing to be top rate global
Staring in your eyes
while I got you in a choke hold
Loco is what I might be
But for the dough I will strike through
you quicker than lightning
It's frightening when you see my face
But, by then it is way too late (One time)

[HOOK:]

Soon enough I'mma make me a million
Even if the results will be killing
Fast cars, women, gotta be true
Even if I gotta take out you (my goodness)
Soon enough I'mma make me a million
Even if the results will be killing
Fast cars, women, gotta be true
Even if I gotta take out you

[VERSE 2:]

As I step on the scene,
right, left from a swing
Man down! I'm a king
Gettin' green is a dream
if you know what I mean
Come and step in the ring
Or better yet the arena
The harder the challenge,
the larger the greener
No joke when it comes to mines
For the right price step it up, next in line
No money, no honey, no honey,
slim tummy
Next stop, skid row, straight bummy
It's not funny when you can't survive
So, you better stay paid
or you might as well die
And I can help you with that
Turn around let me hit you in a face wit' a bat
Stackin' money is the task at hand
Even if I gotta take it out your mask my man

[HOOK:]

[VERSE 3:]

It's kinda ill when you think about it
Population control in a game overcrowded
I doubt that's a problem with me
'Cuz I will take 'em all out for just the right fee
Right knee, left hook, head butt
Raw flesh, disposed, ripped up
Knuckle up if you think you can hang
It's nothing personal it's all for the change
And the ladies, and the cars,
nice things anything that I want
For the bling man I'm all on the hunt
I can't front, little punks get done
when it comes to dinero
I don't think that you want to be a hero
One with the zeros, binary,
countin' the cream
It's the American Dream
You know I heavily fiend for the paper,
guess who's next?
Don't trip just cut my check

[HOOK:]

I told you, I don't play
when it comes to my green (ha ha)
You know what I mean?

08 I KNOW U WANT ME - BANDY LEGGZ

Ah ah ah ah
Ah ah ah ah
Ah ah ah ah
Bandy Leggz

[HOOK:]

I know you want me want me
Stop playing hard to get
You know you want me want me
Just trying to make me sweat
I know you want me want me
C'mon and place a bet
Cause if I win I get to have you as my pet
[x2]

[VERSE 1:]

I know you like me
I see it in your eyes
I think this is no surprise
I just wanna make you mine
Just name the place and time
My heart is on the line
One hit to my face
Sends a chill down my spine
This love is sick even a little twisted
One look in your eyes
Like a child you got me lifted
Pretend you're hitting me
Feels like you're touching me
Just want to show you that
I want you exclusively
C'mon admit it
Chemistry I know you feel it
Anything you want from me
You know that you can get
I'm fighting for your heart
So baby let me in it
Cuz even if we brawl
you know that I can win it
So come a little bit closer
Put your head on my shoulder

If I just get the chance to hold you
Just wanna show you I care
As you pull on my hair
And you fling me from here to there

[HOOK:]

[VERSE 2:]

So do you feel me
Do you even know my love exist
How much I'm longing
I'm longing longing for your kiss
A dual to the death
As we fight fist to fist
As you blacken my eyes I pucker up my lips
Oh when you hit the ground
I kinda like the sound
Just like the beat of my heart
So can you hear it now
So hard to explain
Like the blood through my veins
It's driving me insane (x2)
Cause I don't know what to do
Head over heels over you
If I could just get a chance with u
Look what you're putting me through
My eyes are black and blue
You're hitting me and I'm kicking you
I'm going crazy I just wanna be your lady (x2)
So tell me what to do, what to do baby (x2)

[HOOK:]

[ADLIB:]

So tell me what's it gonna be
(tell me what's it gonna be)
Is it gonna be you and me (me and you)
I like it when you're hitting me
(when you're hitting me)
It feels like you're touching me
(oh yeah, it feels good)
Don't take it easy on me (uh uh)
I know that you're feeling for me
(I know you feel for me)
So tell me what's it gonna be (tell me)
Is it gonna be you and me

[HOOK:]

10 GOTTA GET THE CASH - DOUJAH RAZE

Uh, uh, yea,
Get outta here with that shit man!

[VERSE 1:]

Yo, you don't know me, and you don't know
what I'm going through
So fuck you and your lame ass point of view
That shoulda been
my whole mission from the start
You putting it together,
I'll tear it all apart, what?
I gotta gets mine,
stepping through this minefield
And what's not mine becomes mine,
you mind? Chill...
That's the way I gotta take it from the mans
Put a price upon the fans

I'll put lead up in the stands
It doesn't matter who the target is
You know I'm gonna finish it
Once I get it started kid
That's the way I gotta market it
Marksmen, mercenary,
making all your hearts skip
And I can turn you into parts quick
Put you in a box and ship you off to yard 6
Where the non-believers go
The ones that started pleading
Cuz they couldn't take the bleeding
from the beating yo
So you might wanna shut your mouth
'For you end up a pine box
headed down south
Yo' momma brought you in,
I'mma take you out
Send you down to hell
you can burn like gout
I'mma make it clear I won't leave a doubt
I told you why I'm here it's my only route
So you can stick around
cuz it's gonna be a thriller
In this world,
ain't no other options for a killer, I just...

[HOOK:]

Gotta get the cash, gotta get the dough
Gotta get the cash, gotta get the dough
Gotta get the cash, gotta get the dough
Body for a price? Just say so
Gotta get the cash, gotta get the dough
Gotta get the cash, gotta get the dough
Gotta get the cash, gotta get the dough
If it means kill 'em all then I won't say no!

[VERSE 2:]

No, no is what I hear all the time
when I'm slaying 'em
Body parts, so nice filleting 'em
Slice, Slice! Dicing up some mayhem
Gotta keep it light
in this dark world of grey and...
Black, but you can catch an axe to the back
Or a slap to the face from the clap of a gatt
Strap to your waist, plastic to your hat
Bap bap bap, feel the tragic collapse
I'd say that's pretty serious

So maybe you should start thinking
"Hmm, well it's time to be fearing this"
Cuz if I keep hearing this
I'mma have no other choice
But to leave your whole fam hearing-less
Yea, that's how really real it is
I care about my pockets,
not about your feelings, shit
So when I kill you man
It ain't personal
It's just the only way I still can make a grand
Understand what I'm talking 'bout?
Get the picture, of what this all about?
It's time for you to walk it out
You don't wanna be around
when these dogs start barking out
You don't wanna play the target route
Cuz I don't get paid unless
the fucking target's out
That's the way it goes
That's the only way I know
Just to make my dough!

[HOOK:]

[ADLIB:]

Shit, you think I'm just gonna
sit around and do nothing?
They're fucking monsters out there man!
Somebody's gotta kill 'em
You can keep your justice man
I got my justice right here

[HOOK:]

11 KILL 'EM ALL - C.WILKES (OX)

Kill 'em all!!! Kill 'em all!!!
Kill 'em all!!! Kill 'em all!!!
Yea yea yea yea,
I K,K,Kill 'em all!!! I K,K,Kill 'em all!!!
Yea yea yea yea,
I K,K,Kill 'em all!!! I K,K,Kill 'em all!!!

[VERSE 1:]

Yeah, no way that
you can hide from the best.
I'm a mess,

I'll body anything that takes a breath
On my left is a pile of bodies
bigger than myself
On my right there's 100 scared souls
screaming help
And they scatter trying to get away
but they 'gon meet the end today
Cuz ain't no way that they ever
had a chance to contend with me.
Cuz see I kill 'em all I K, K, Kill 'em all
It's either me or them
and my blood ain't bout to spill at all
Cuz I'm the hunter not the huntie
And for an enemy I guarantee that
they don't want me
There's something just a little different
bout how I run things
Maybe it's the way
I turn my enemies to lunch meat
Or maybe it's the way
I smash everything in front of me
They don't want it
I do it so easy it's funny, G!
I'll turn a vet into a wanna be
And do it to the death
I put them in their final scene. Hey!

[HOOK:]

Yea yea yea yea,

Yea yea yea yea,

[x2]

[VERSE 2:]

I can see the fear in their faces
And hear it when I come out
the box to leave 'em faceless
It almost makes it strange for me
to break them bones
But nah I break so many that it's basic
They tell me have mercy,
I hit 'em with a flurry
Show 'em the dark side,
and give 'em hells fury
Now show me somebody
on the planet to handle that
And I'll show you a body open
just like a sandal back

Candle wax, thats how I melt them down
My aim is flawless, I never mess around
Move at perfection's pace,
Taking out these clowns
In other words you against me
then you going DOWN
I said I kill 'em all I K,K, Kill 'em all
I got more bodies than the morgue now
who the next to fall
Who next to find out
what it's like for them to hit the wall
So hard that when I'm done,
ain't nothing left at all

[HOOK:]

[x3]

Kill 'em all!!! Kill 'em all!!!
Kill 'em all!!! Kill 'em all!!!
Kill 'em all!!! Kill 'em all!!!
Kill 'em all!!! Kill 'em all!!!

and blast him back to the stone age
(KARL)
Rushden & diamonds

[VERSE 1:]

I don't want to know where you've been
Your face is blue and your arms are green
Hiding underground like a submarine
You're the ugliest creature I've ever seen
Plotting to attack from your awful caves
We'll impact your skull cracks laced
with sound waves

Shot to your face then demand a raise
Cuz the pays only gave
if you're left in the grave
Reverse osmosis
You're a disappearing
hack your limbs off hocus pokus
Your species is disgusting
and you know this
On this atmospheric particle
I'll have to write an article
For all of you subhumans
who were bout to detonate "boom"

[HOOK 1:]

They came from underground
Blistering creatures from the pits of hell
So they could knock us down
Disfigured humans come out your shell
They wanna run this town
Tear apart the people eat more personnel
They came from underground ground
They came from

[VERSE 2:]

Committed mad sin when I pulled the pin
Tell me how many years since the war begin
If the depths of hell is there origin
I'm a grab a flesh wound and pour shit in
Inferior species

With feces
A diseased parasitic freak from underground
We 'gon kick you out our town
So why you headin' earth bound
We 'gon be launching' a scud missile
at 'cha listen for the sound (ah)
Keep the man in motion
Shootin' for your legs
Standing by the ocean
If the rivers run blood better bring your lotion
For they blocked out the sun
like freakin' scum

[HOOK 2:]

They came from underground
Festering demons that hunger for blood
Attracted to our sound
Let's hit the deck without making a thud
We'll fight them pound for pound

I think I saw one I'm loading a slug
They came from underground ground
They came from

[VERSE 3:]

To end their madness
I'll put a slug to their cranium
Smash shit apart
like a broken geranium in a pot
Do you know what we got
We got a photon missile
and we takin' a shot (pow)
The games changed cuz people changing
Humans rearranged
into different strange things
Aim for the brain maintain no fainting
If the pays by the corpse
then we makin' ching ching
The devil at a molecular level
Could never stop our stride
cuz you know I'm a rebel
Cross between a human and a rat
We should end their misery
with a baseball bat
Electrified fried like a pork chop
won't stop rappin'
'Til the human race is on top
Up in this place I won't knock
Even though the Earth's surface is
scorching hot

[HOOK 3:]

They came from underground
Despicable creatures with mangled limbs
So they could knock us down
A pool of blood is where the bodies swim
They wanna run this town
We're cocked and loaded bout to pull the pin

They came from underground
Despicable creatures with mangled limbs
Attracted to our sound

They came from underground ground
They came from underground

Don't stop (stop) stop

[VERSE 1:]

Don't move, check it
the who's who of wrecking
Gets too bruised to recognize who's who
You step up and you lose everything,
your crew troops and weaponry
No truce, choose your second string,

2 moves left to check your king
Mate, slay them quick as they come,
weight of my kick is a ton
Strength at the tip of my tongue's bayonet
Sharpened for carving these diamonds,
talk with an awkward alignment
Sparked from an awful assignment,
they're calling it rhyiming
But I'm calling it war,
and I'm calling for more
As I sharpen my sword
watch them fall to the floor
From a crawl to a corpse,
battling part of my soul
Shattering thoughts of a course of action
that calls for withdrawal (Never)
The flow ain't letting you go
and so ain't the heads that I roll with
Don't get ahead of you bro
or you'll be the head that is rolling
Mic check, times up next defendant
get them primed up
For dying, line them up, line them up

[HOOK:]

[x2]

[VERSE 2:]

Yo, my syllable sickness killing folk
quick with no witness
Skillfully spit with a liquid flow,
take a sip and then tip the pro
Ain't a typical pen
that penetrate mental and physical
dental or ventricle, permanent,
temporal, cursed with a blessed flow
Yo, yo, yo... ain't no slowing or stopping,
stalling or pausing
To catch your breath you'll catch
your death by the boulder you're dropping
Over the top with my underground style,
plunder abundance of clowns
Rowdiest crowds try to jump at my crown
No, but I'm hunting them down
and I'm cutting them down
Getting bludgeoned by sound,
just a stump where you're found
Ain't no chumps in my pound,
just some ravenous wolves

Battered and bruised animals
that are known for damaging fools
Cannibalistic nature, savages spitting danger
Cats on a trip to take us?
Pack them to meet their maker
So mic check, times up
next defendant get them primed up
For dying, line them up, line them up

[HOOK:]
[x2]

See the difference between them
and me is I'm a real emcee
I was born for battling
I was bred for this, man
So I tell you what... keep lining them up
and lining them up
and I'll keep knocking them down
That's right man
MuzeONE! Scribbling Idiots!
And we're out

The one who won't call it quits

Pullin through victorious
Destroyin you tremendously
Every battle that I win
Adds to my living legacy

[HOOK:]
[x1]

[VERSE 2:]

Cuz when my back against the wall
And I'm goin out

Deep into my soul
Reachin for the strength
That's gonna bring me to my goal
The fuel for the fire
Inspires and I'mma fighter
A rider that'll light ya
I got maniac desires
When you think I'm done
I really only started
A battle tested warrior
I see your soul departed
I see you as my target
Before I'm outta time
I'm makin sure your last breath
Comes before mines
You'll never finish me
I finish you your body layin
I diminish all your power
Continue causin mayhem
Takin you out by surprise
Thinkin it's a miracle
It's all part of the plan

Death becomes a ritual

[HOOK:]

Man, I got too much, ya heard me,
too much of a fighting spirit
And no matter how hard it gets,
I always find a way to victory

17 JAW

- MUZEONE

Trust me son, you don't really want it
You step up... you will get beat down
Check!

[VERSE 1:]

I'm strong-arming them, bomb harder
and slaughter the common men
Conquering all combatants compliments
of my dominance
My prominence leaving them petrified,
they get the consequence
Of stepping high, their opulence is set aside,
my providence gets rectified
Check it, I'm the baddest man alive
Damage planets with a jab a savage beast
will not survive
I'm the king set to swing
on any thinking of crossing me
Next to blink gets a loss to me,
set them deep in a coffin
Feet below the earth,
underground my stomping ground
Hearts will drown when I'm in town
Rocking the ground
with shock just by walking around
May they never rest in peace,
but may I rest on them
An inaudible requiem hit hard
to the chest of them
I beckon them, WHO WANTS IT?
standing on a mountain peak
As the blood of my enemies drip
from my fist to the heap at my feet
They wanted beef,
they're getting ground into oblivion
The synonym of sinister,
their end is what I'm giving them

[HOOK:]

Yo who want it, knuckles clenched,
blood drenched, kid
Yo who want it,
come stepping hungry get fed
Yo who want it,
hearing all the challengers call
Thru the battles and brawls

I stand and they fall
as I hand them they jaw
[x2]

[VERSE 2:]

My haymakers slay players,
shake haters greater than
A golden state quake
will break the golden gate
Leave them in a swollen state,
holding weight that motivates
The fake to go escape before I break
and straight unload my hate on to their face
Hold it, wait everything you own I take
Editing my enemies,
no weaponry will slow my pace
Generous with genocide
to those who standing in my way
Settle them like sediment,
my throne is planted on their graves
Save your sympathy for homelessness
and meekness for the holy robes
I got a bone to pick
and it's the femur of a former foe
Slow your roll, a genius with a mean fist
and a potent goal
Hold your hopes of beating me
if suddenly you're feeling bold
Told you I'm a beast
and you're the bottom of my food chain
Showed you I'm the chief
and leave you rotting on my crusade
Hope you brought at least
another option to amuse me
Quote me, I will feast upon your heart
before you move me

[HOOK]

Don't say I didn't warn you, son.
Don't blame me when you get cut down
Shoulda known better!
MuzeONE!

18 PLAY FOR KEEPS

- SICK YG

You can't catch me!
Ha ha ha!
What you thought that was?
I'm a soldier to the death!

[VERSE 1:]

I'm a sovereign mobbing
through the city streets
Your little petty rules do not apply to me
I like to ride and see the puppets
hanging on the strings
And every now and then
misery is what I'll bring
You scream, I scheme as I take the law
Into my own hands and crush it
while I break your jaw
You think I'm faking,
all you really got to do is try
To apprehend a guy,
then you'll learn the reason why

[HOOK:]

Even if you tried, I cannot be caught alive
So what I break the law,
before I go, I will die
So get your bounty hunters,
I'm the one that's most elite
So what I break the law,
in this game, I play for keeps

[VERSE 2:]

Ichi, ni, san, shi, tell me when to go
Into a rage while I milk you like some cereal
Sometimes it's critical,
at other moments it is death
My only mission is to be the only person left
And my accomplishments is
a result of your demise
You need an iron diet,
here it's highly fortified
I'm into torture,
I don't have an under-handed thought
What you see is what you get,
now go and get your boss
You're about to take a loss
that is highly guaranteed
Somebody has to die,
it's either you or me
And I refuse to lose and that's a fact
That's why I choose to bruise and counteract

[HOOK]
[x2]

[VERSE 3:]

Which way did he go is the question

I have the masses gasping and stressing
But I'm infected with thoughts of a mad man
So any strategy to capture me is a bad plan
I am what is known as a villain
So any opportunity to strike, I am killing
I'll chill when the hounds take a break, then,
Even when the scent is forgotten
I will take them
On another round, it is found, I don't care
I am always down
and I'm bound to be anywhere
So, take a look over your shoulders,
what do you see?
And, stay away from the light, trust me

[HOOK]
[x2]

Do you want me to break your face?
Ha, ha!
You better get off of my trail
Many tried but all has failed!

19 WE PLAY - DOUJAH RAZE

Uh, yea yea, are y'all ready to play?
Well this is how we play!

[VERSE 1:]
Yo, blood spatter gonna hit the wall
From the bones that shatter

And it won't even matter
all the shit you saw
Cuz your whole brain matter

We can get it down yea we can get it raw
But you don't want the pound na
you don't want the law
Dumbing you up, numbing you up,
gun to your lip
You know I'm coming with the
Madness the hardness the violence
You know I'm coming with the
Blackness the darkest horizons
You know I'm coming with the
Sadness for all that incite me
You know I'm coming with the
Joy of the kill so invite me
You know I'm coming with the

[HOOK]
Murder ma-murder ma-murder ma-murder,

Rising ri-rising ri-rising ri-rising, I'm live like
Lightning li-lightning li-lightning,

You know that you want it
you'll love it just try it, try it

[VERSE 2:]
Take a sip of insanity
Put a knife through the heart of humanity
Murder you it'll only make a man of me
Let's dance till the dawn till we barely see
We can get it on yea we can do it free
Gatt to your waist shotgun to your knee
Stomping your face straight
rocks to your teeth

You know I'm coming with the
Hatred, the drama, the bombs
To wipe out these idiots
The world is their breeding ground
So we might as well get rid of it
But while we living it
we just trying to find the fun in it
The blood and the guts and the death
and the hate and the love of it!

[HOOK]
[VERSE 3:]
Mom's away, bombs away
Yo how the world got this way
to rot this way?
You couldn't pick a finer day
to die this way
It's time we remind ourselves
of why we play
(why do we play?)
We play to make the world turn round
We play to make the world burn down,
burn down (burn down)
We play to make you so insane
That you wanna take a razor
right into your vein
Open it up show it to kids blow in the cut
Add some vinegar before I'm sewing it up
Blowing it up, go to your ribs,
you throwing 'em up
That ain't enough? you asking for the

[HOOK]
[ADLIB:]
We play to make the world turn round
We play to make the world burn down,
burn down
We play to make the world turn round
We play to make the world burn down,
burn down
We play to make the world turn round
We play to make the world burn down,
burn down
We play to make the world turn round
We play to make the world burn down,
burn down
We play to make the world turn round
We play to make the world burn down!

20 THE HAND OF SCIENCE - SKITZ THE SAMURIDA

This is the hand of science

[VERSE 1:]
There's only one reason
that's real that I'm alive
And only one thing
that I entrust to survive
Now I'm forced living
with bodily attachments
Technological advancements
survival skill enhancements
No more sutures
and stitches it's circuits and switches
It's slavery to science held against my wishes
It's gotta be this way
in my mind it's all relevant
Body encased in armor
to protect me from the elements
Replace a limb with a weapon
makes me more lethal
War is all I know it's never been peaceful
I do what I gotta do I'm left with no decision
Fully modified the way to stay in existence
Can't lose my vision scientifically driven
Stayin on my mission the way
I'm forced into livin
Surgical procedures got me losin my mind
Stuck this the only way to live in these times

[HOOK:]
This is what it's come to living
in these last days

Cybernetic organisms science rules
in mad ways
So begins the hybrid way of livin
Relying on technology a scientific prison
Man and machine morph
to come new beings
Stand in between add on new things
Once again it's survival of the fittest
With the hand of
science declaring us the winners

[VERSE 2:]
Hardware and heavy metal
strapped to my body
Can't breathe without a mask
this evil air is foggy
It seems to me that a change is in need
Can't exist as a human gotta be a new breed
More metallic than organic organisms ya see
Being a slave to science is like a prison to me
In this cold world
it's only for the cold hearted
In this mechanized environment
I gotta stay guarded
So now I put my life in the hands of science
Submittin my humanity with no compliance
These body augmentations are
my only reliance
Against anybody who stands in defiance
I'm a killing machine that's only part human
A servant to mechanics
without them I ain't movin
All that's left is madness don't know
how it came to be
All we know now is science reigns supreme

[HOOK]
Now I've won, I reign supreme
You rely on me to live
Without science you cannot exist

21 HERE WE GO - THEORY HAZIT

yo yo yo y-yo yo here we go
yo yo yo y-yo yo here we go

[VERSE 1:]
Time for some action

Can't get no satisfaction
Until my steel toe crashes
Head on collision What's happening?
Fist swinging, face mashing
No need for the caption
And you better not interrupt
When the titans are clashing
DJ bring that beat
So I can bust slang from the street
Bang with the heat, semi auto
I'd like to see you dodge these hollows
I throw. Too much beef to swallow
Can't keep up with me to follow
Sound check is over
Show just begun
Trying to escape makes it worse
Don't run

[HOOK:]
Just bring the beat to the show
And watch them tear up the floor
It's gotten out of control
There is nowhere to go
You're moving too slow
And it's about to explode
So if you're ready to roll
Then baby here we go

[VERSE 2:]
I got you right where I want you
There is nowhere to run to
This ain't nothing like Kung Fu
More like watch what the gun do
Let the poppers pop shots
And the breakers break jaws
They don't box they brawl
They don't make beats they make war!
Got kicks and snares for you.

We take it there for you
Heard what I said?
Snatch your dreads
Out of your head oh yeah
So you can dance around
You won't last a round
I'm finna act a clown
You don't know?
You better ask around

[HOOK]

[ADLIB:]
I got the mic in hand and I'm ready to go
I said the mic's in hand I'm ready to go
(Here we go)
Let's go goat mouth and start the show
What ya waiting for?
Let's start the show (Here we go)
I got the mic in hand and I'm ready to go
I said the mic's in hand and that's for sure
(Here we go)
Let's go goat mouth and start the show
What ya waiting for?
Let's start the show come on!
(yo yo yo)

[VERSE 3:]
This ain't no dance battle
This here is suicide
That means when you step in the ring
You know one thing, you will die
Death is certain put more than
a hurting on you
It's curtains
Disturb me while I'm working
You'll end up patient and I'm the surgeon
Incision
Rearrange your organs
I'm more than just hot I'm scorching
Thwarted mutated orphans
Aborted the native order
We're rebels with a cause
Causing commotion
Poison is potent
I'm hoping you reexamine my opus
You think I'm joking but no (nah)

[HOOK]
[x2]

22 DEMISE - WONDER BROWN

Guess who's about to see their demise
Your time has come and your season's arise
Close enough
to feel every heartbeat on the rise
I'm the reason that you're leaving your life

[VERSE 1A:]
Yeah

The pure definition of raw
Where beast's my middle name
And I'm looking for a reason to brawl
You wanna know
What it's like to not be the default
Then step in my shoes
And walk past these demons in awe
My grind focused on nothing
but making you pay
You wanna cross the line
Then be ready to lay
Down at any price
Cause best believe I'm doing the same
But while you're choosing rewind
I'm only pressing replay

[BRIDGE 1:]

Funny how he thought
He masked in his disguise
The fact I caught him
With a back to his surprise

[VERSE 1B:]

I see you losing your cool
Now you crossed the line
No, you're never winning
No, you're never winning
No, I can't play by rules
Cause that would cost me mine
No, you're never winning
No, you're never winning

[HOOK:]

Time is running out
Hope is looking bare
Hearing footsteps
When nobody is there
When death is near
It's a sign of the times
That I'm right around the corner
With my eyes on the prize
Time is running out
Hope is looking bare
Hearing footsteps
When nobody is there
When death is near
It's a sign of the times
That I'll be the one
To cause your demise, alright?

[VERSE 2A:]

Jack be nimble
And Jack be quick
But Jack couldn't hold a candle
To my knack for this
That's why he couldn't see
Me behind his back, to dip
Before I told him bon voyage
And laughed at his demise

[BRIDGE 2:]

Funny how he thought
He masked in his disguise
The fact I caught him
With his back to his surprise
This masochist
With a passion fit for crime
Is after his
And after who's after mine

[VERSE 2B:]

When it comes down to it
I hold my own
Until I got the cape and the crown
And the throne, it's on
Better wish you grow another pair
To grip to eventually know
That what I hold in these
Crosshairs will split your dome

[HOOK:]

[BRIDGE 2]

[ADLIB:]

The clock's ticking
And what lies in the fold
Is my mission
To let my grind be known
If I'm in it
Then when my time has come
You better be running
In hopes my time is done
You don't wanna be the one
To find what lies in wait
You don't wanna be the one
To find what lies in wait
You don't wanna be the one
To find what lies in wait
Cause by the time you see me
I've already devised your fate
Demise!!

through the danger zone
Double-timin' rhyme'n
Stoppin' on a dime (yeah)
When they wave the checkered flag

Cockpit neutral drop-it

Watch me burnout on the open road
Speeding round the corner
You can eat my dust you're too damn slow
Rock-n-roll ignition
Rap'n disposition
When I'm blasting super sonic
on a fuel-injected mission
Carbureted intake fossil fueling
with a turbo boost
Cross the finish line
because I'm cranking more juice!

(KARL)
Buckle up for safety
cause you know were bout to blast off
Broken all the records,
told you son you better back off
Speeding like a demon
must be dreaming that my ass lost
Faster than the speed of sound!

[HOOK]

[VERSE 3:]
(MIKE)
Black market after burner,
flip the switch and watch me zoom
Iron eagle in a tailspin
buzz the tower shake the room
Train conductor locomotive

Take a look at me
And tell me
Do you think I like living like this?

[HOOK:]

This world is stressing me
Everybody's testing me
I just wish they'd let me be
Because the ones that I love
They in pain, saying "rescue me"
I just need to set them free

It's been so long since I felt the touch or
Seen a smile from the ones I love so much
And I fear the worst,

Keep moving forward,

And I don't know what's right,
but I know what's wrong
And I know this world been this way-way

So I'm bout to change the whole way
that this planets headed on
And get in my way there ain't no way you
that won't be dead and gone

Yo, this land is littered
with lunatics and killers
They smile like crocodiles
while they beat you like gorillas
And I ain't like none of 'em,

Even though my hands stay bloody
And got a gun in 'em, yo
I'm on a different path,
headed to a different shore
Shit, most these cowards don't

But I got something for 'em,
Wait till they see what's in store

So sick of screams in my dreams
Scenes that wake me up
The shit I've seen

Where I feel my mental breaking up
But I can't give up, I can't give in
Cuz the moment that I do
is when the other side win
So I'll keep fighting, battling my enemies
Until I reach my destiny

28 WE ALL SOLDIERS - SKITZ THE SAMURIDA

Searching for the target
Target acquired
Destroy, destroy, destroy

[VERSE 1:]

Android invasion
Arsenal load 'em all
Set the target blazin
Stickin to the protocol
Hold 'em all
Function without thinkin
Never sorry to put fools into extinction
My metal mind only knows
to serve one purpose
My body hybrid humanoid
for the killin service
I once was a man
Battle wounded not discarded
Senseless to the mayhem
Emotions all departed
Life again restarted
But life I don't regard it
I feel no pain no restraint

Just plain heartless
To the code I'mma keep
Follow orders never sleep
I'm cold on these streets
My army roll hella deep
Cyborg militia wit the
Never quit attitude
Travel through this land
Only knowin what I have to do
Handle 'em damage 'em
Might as well dismantle 'em
A savage wit no conscience
Never choke but I'll strangle 'em

[HOOK:]

I'm a soldier
You a soldier
We all soldiers
Yeah we all soldiers
I'm a soldier
You a soldier
Programmed to destroy
Follow orders
I'm a soldier
You a soldier
We all soldiers
Yeah we all soldiers
I'm a soldier
You a soldier
Wit a simple mind to fight
Now it's over

[VERSE 2:]

Now in attack mode
You lookin for the back door
Beg for mercy
I ain't cuttin any slackyo
All in get it in
My focus what it's always been
Time to win in a world of sin
My mind is just a simpleton
Existin as a soldier
No brains on my shoulders
Ain't never run across
Nobody wit a heart that's colder
And I ain't one to fold bruh
Relentless wit my business
Witness the ruthlessness of my existence
No regret no remorse
Never sorry for my actions

Just distractions of
my past n' reactin circuit crashin
Flashes of a family
Could it be a memory
Numb to the killin
So I know it's not affectin me
Android weaponry
Follow orders to a "T"
The definition of
What a soldier posta be
Never go wit ease
Fights I'm not selective
Do what I was programmed to
Follow my directives

[HOOK]
[x2]

29 LIGHTS OUT - G. WILKES (OX)

[HOOK:]
Beat 'em till the life out
Knock his fucking lights out
Beat 'em till the life out
Knock his fucking lights out

[VERSE 1:]
Left right doesn't matter
Either way I'm moving faster
Before you ever land a punch
Drop a dozen on your bladder
Watch that target splatter
I'm such a fucking master
You can't even see the movement
All you do is feel the blast, brah
See while you were sleeping
I been out here beasting
Then while you was eating
I was buried to my knees in
The blood and guts of advisories
Thought they could beat him
I turn them thoughts into a dream
That they cannot achieve slim

[HOOK]

[VERSE 2:]
Them blink and then I bleed them
And that's the way I leave them
Devoid of any breathing
Massacre of all the legions
I body the whole region
And call it hunting season
Solidify my kingdom
Kill 'em all without a reason
This is the sportsmanship
In its purest form
The cauldron that is drawn
From which true warriors born
The way my soul was spawned
Stepped out with weapons drawn
Pulled out my first breath
Exhaled and dropped a bomb

[HOOK]

[VERSE 3:]
Blood guts
Glory pain
Feel that pressure
Love that strain
That's what I survive on
That's what keeps me sane
Well, sane as I can be
Cause in my little brain
I got a few malfunctions
My shit don't work the same
Screws loose, screws loose
Gone just a lil bit I'm out my mind
Feel like I'mma die if I stop my grind
But it's cool cause it keeps me
on the winning side
And I'm winning like
Winnings life I got my stripes
And I ain't never giving it ray of light
I take no losses I just rise I just rise

[HOOK]

Beat 'em till the life out
Knock his fucking lights out
Beat 'em till the life out
Knock his fucking lights out

30 MERCILESS - THEORY HAZIT

Uh, Uh uh uh uh 2, 3
Yeah.
Let's go!
You ready?

[VERSE 1:]

Uh!
Yo' I'm something like a tiger
Eye of the tiger
Heart of a lion
Spit venomous like spiders
Hand me the mic prior
To these wannabes and liars
Feel the wrath from messiah
They the gas, I'm the fire
It's kill or be killed
On these streets that I scout
Which leads me to weeding 'em out
And plant my knee to your mouth
Get punked like I'm the predator
Ahead of ya
Ahead of my time
I got news for my competitors
(we merciless)
'Cause it's demanded
Ill and dithyrambic
99 percent skill
And I'm just kicking antics
Greetings to your disadvantage
Swung and my fist landed
Cracked your mandible
Leaving the right side of your face slanted
Now rob me from mine
Disrespect my grind
Better run and hide
And hope I don't find
Got payback on my mind
I'm a beast I promise more than teeth marks
Stay in the house
Now that's using your street smarts

[HOOK 1:]

Check it out
One, two
Beast mode
What ya wanna do?
Yes y'all

We Merciless!!
And until now
You ain't ever heard of us
Check it out
One, two
Beast mode
What ya wanna do?
Yes y'all
We Merciless!!
We Dangerous!!

[VERSE 2:]

Uh!
Automatic, diplomatic,
Systematic, sticking at the
Sickest pattern,
Listen as a diss combative amateurs
Make your soul deviate
Put your carcass in the grave
Your homies' try to mediate
I'll squeeze your brain in canisters
Put your mind in blenders
Guess what's for dinner,
Vertebrae, it's murder day
It's best that you surrender
I can tell you're tender
Smell the blood from your injury
As you plea for remission
'Cause you've entered
Without permission
Trespassing that's instant
Dimples to your temple
Die already, let's make it simple
I'm the beast you're the feast
I want your ribcage meat
Stuck in between my teeth
Delicatessen dressed in
Dressing and decadence
Nobody will find you
I'll eat up all the evidence
It's carnivore vs. herbivore
My hunger plays a
Different melody than yours
You ain't ever heard before...

[HOOK 2:]

Check it out
One, two
Beast mode
What ya wanna do?

Yes y'all
We Merciless!!
And until now
You ain't ever heard of us
[x3]

You ain't ever heard of us
You ain't ever heard of us
You ain't ever heard of us

31 FIND YOU - DOUJAH RAZE

[HOOK 1:]

The things that you conceal
They can't hide you
The things that you reveal
They can't guide you
What you thought was real
Is just a lie too
If you can't find the truth
The truth will find you
The things that you detest
Are deep inside you
The things that you possess
They only ride you
The words that you confess
Are just a lie too
If you can't find the truth
The truth will find you

[VERSE 1:]

We all caught up in it
Cause we all brought up in it
The hardship we endure is
just a part of living
All the hearts we break,
that's just a part of building
All the parts we take,
that's just a part of giving
You don't see it, what you seeing is hidden
And when they hide it they don't want
no one to find it - forbidden
And when they lying
then it's really only truth that they spitting
If you believe 'em
then it's really just a lie that's been written
It's kinda hard to try to figure out
the science/religion
Cuz all the hate that you spraying is

really love that's misgiven
And all the love that you craving is
just a hateful incision
And when our soul's cradled
then it's in a grave or imprisoned
The state we live in
ain't the way we envisioned
When we were babies
there were so many ways
we were left wishing
But now the wool has been
pulled over these eyes that did glisten
And now that glimmer of hope
won't even shine in a prism

[HOOK 1]

[VERSE 2:]

Ways through the madness
Are often painful and tragic
Your final place is a wasteland
That's filled with anger and havoc
And all the angels and magic
Couldn't re-angle the traffic
And this disgrace of a place
Is left to its demons and addicts
There ain't no way to try to
come back from these episodes
They'll leave you lost
until you're found extra-terrestrial
Cuz when the human mind is
nothing more than vegetables
It's so easy to spray, and say
There's nothing left of those!
That's the point cuz as they grow it
They don't want you to know it
So they dress it up like it's pretty
When it's really a rodent
And they make it out to be silly
When it's really important
And yea they call it your partner
When it's really your opponent

[HOOK 2:]

The things that you conceal
They can't hide you
The things that you reveal
They can't guide you
What you thought was real
Is just a lie too
If you can't find the truth

The truth will find you
The things that you detest
Are deep inside you
The things that you possess
They only ride you
The words that you confess
Are just a lie too
The only way to find the truth
Is to find you!

[ADLIB:]

Yea, yea, they can't hide you
Uh, nah, they can't guide you
Yah, yah, it's all a lie too
The only way to find the truth
Is to find you
Yeah, yeah, they gonna ride you
Yah, yah, they deep inside you
Yo, yo, they right behind you
The only way to find the truth
Is to find you!

32 THIS IS MADNESS - DILATED PEOPLES

(DJ BABU)
This is madness
(repeat)

[VERSE 1:]
(RAKAA)
Yeah!
Rise and splash flash floods of
chemically treated
Hydrogen 2 oxygen artificially heated
Bio-chemicals
Radioactive movements
WMD's turn humans to mutants
Viral weapons and pollutants
let loose by the fools
In a world so cruel
where the warlords rule with an iron fist
Humans on the brink of collapse
Second chances
Nanotech scientific advances
(This is madness!)
This descent into madness
For greed and ego they brought
the devil to dance with humanity
Cybernetics compensate for their hands

The arms, legs, and feet
Of child woman and man
World war cyborg
Hybrid cybrid
It all feels like a dream
'til you pull up your eyelids
With a cold heart of darkness
One city is lawless
One city fighting for order
That's what the law is

(DJ BABU)
This is madness
(repeat)

[VERSE 2:]

and the holy lies survival
Worse comes to worst
every mutant is a rival
Radioactive
It's downtown science
The opposite of Lucifer
Not opposite of violence
I hear silence, then eardrums pop
Literally ill
Watched the planet as it rock
With the cold heart of darkness
One city is lawless
One city fighting for order
That's what the law is
